GD-Dryer

Product Application

In order to have a better quality for paper straw, it's better to dry-cure nearly one day before packing or wrapping. But sometimes, it's urgently to deliver straws to customers or there's a rainy day, so the dryer machine is needed.

Main Features

1. Automatic transfer;
2. Energy conservation;
3. Transfer speed and wind speed controllable;
4. Temperature intelligent operation.

Model	Voltage	Power	Dimension	Transporting Speed	Weight
GD-Dryer	380V	9.6KW	2300*700*1020mm	0-10m/min	120Kg
